Coding Services

QUALIFIED CODING PROFESSIONALS

Accentus has a comprehensive recruiting and testing process to ensure we build and maintain a superior coding team to serve our clients. The coding team members are certified Health Information Management (HIM) professionals, have a minimum of three (3) years ambulatory care and five (5) years inpatient industry experience, and are fully trained in the standards of coding, as well as, the use of ICD-9/ICD-10 principals. Accentus ensures that off-site or remote coders are equipped with the latest in coding hardware and software to ensure that coding is completed quickly, accurately, and is of the highest quality.

CUSTOMIZED CODER SELECTION

Accentus works closely with each client to define a coder profile and staffs accounts to address medical specialties within your organization.

DEDICATED CLIENT CARE

Accentus provides a team of professionals to support each account. An account manager acts as a single-point-of-contact and heads up a

dedicated team of certified coders, team leads, quality auditors, and IT resources, as required, to ensure maximum client success.

ADHERENCE TO SERVICE LEVELS

Accentus will contractually adhere to client defined turn-around-times, quality metrics, and production targets.

A STRONG COMMITMENT TO QUALITY

Accentus has developed and maintains a rigorous quality assurance (QA) program to guarantee accurate and consistent coding. Each QA program is customized to incorporate the QA standards of individual clients. Accentus adheres to quality metrics of 98% accuracy or better.

COMPREHENSIVE REPORTING

Accentus provides several levels of reports giving clients access to detailed data for volume trending, forecasting, and to help manage coding production.
